A SILVER WEDDING .- The "society folks' of this city have during this winter been having a gay time in a moderate way, and "receptions" of a quiet but agreeable Strecker vs. Strecker, &c. Decree confirming report of commissioner and approvostentatious parties of "the better days of the Commonwealth." One of the gayest of these delightful entertainments of this searing cause to a commissioner for inquiry and son was that given on Wednesday evening by Mr. William A. Jenkins, of the Merchants and Planters Savings Bank, the occasion being the celebration of his silver wedding-at least, so Mr. Jenkins says, though it is doubted very much whether a gentleman so youthful and handsome could have committed matrimony so long as twenty-five years ago. A large number of the fashionable ladies and gentlemen of Richmond were present to extend their congratulations to the silvery couple; and from the delightful manner of their reception the only regret expressed was that the laws of matrimony accorded weddings to so few metals as twogold and silver. Mr. Jenkins and his lady have the best wishes of a host of friends for the future.

It was executed by Mr. Albert Guerry, with very high commendations from many of the best citizens of South Carolina both as to his personal character and his skill as an artist.

THE THEATRE.-The change in the programme drew a much larger audience last night than has attended the Theatre this week. The play "Driven from Home" is quite lively, and affords a fine opportunity for the introduction of the clog-dancing and musical specialties of the pretty little Coleman sisters, who did their parts in their \$2.50. The thorough course of treatment referred to and recommende by Dr. PIERCE consists in the use of Dr. SAGE'S Catarrh Remedy with Dr. PIERCE'S Nasa Douche, which is the only means by which the fiuld can be carried high up and applied to all parts of the nasal passages and the chambers connected therewith in which JOHN G. This treatment has no unpleasant feature about it, and has the advantage of never driving the disease to the lungs, as there is danger of doing by the use of strong, irritating snuffs or poisonous
